

TESTIMONIALS

"ONCE PEOPLE TRY ON AEGIX GEAR, THE SALE'S A DONE DEAL. THE BODY ARMOR IS WHAT MAKES IT SELL. AEGIX' PADDING IS SERIOUSLY UNIQUE. IT DRAMATICALLY REDUCES THE IMPACT OF A FALL, AND IT'S INVISIBLE ONCE YOU PUT IT ON. THERE ARE NO BULKY EXTRA LAYERS, WHICH IS MY CUSTOMERS' NUMBER ONE CONCERN ABOUT PROTECTIVE GEAR."

PAUL 'COACH' DURANT - PRESIDENT OF SO CAL SURF AND SPORT AND A 23-YEAR VETERAN SNOWBOARDER

"WE'RE ALWAYS ON THE LOOKOUT FOR EXCITING NEW BRANDS TO OFFER OUR MEMBERS AND OTHER CUSTOMERS. AEGIX GEAR GOT OUR ATTENTION BECAUSE OF ITS UNPRECEDENTED APPROACH TO INJURY PROTECTION..."

TERRI PERLMAN - HEAD BUYER FOR SNOW SPORTS CLOTHING, REI

"THE WHOLE CONCEPT OF AEGIX GEAR IS KILLER. YOU ZIP IN THE BODY ARMOR AND FORGET IT'S THERE. THE FIT AND FINISH SEEM REALLY GOOD. THIS IS TRUE PERFORMANCE WEAR."

TEDDY SCHIAVONI - OWNER, SUMMIT SKI AND SNOWBOARD

"WE'RE EXCITED TO OFFER AEGIX GEAR AS PART OF OUR COMMITMENT TO DO WHATEVER WE CAN TO KEEP PEOPLE IN ONE PIECE WHILE THEY HAVE FUN ON THE SLOPES."

SETH HUNKINS - GENERAL MANAGER, FLUID SKI SURF SHOP

"AEGIX GEAR IS A GOOD-LOOKING, SELLABLE PRODUCT THAT CAN HELP KEEP PEOPLE IN ONE PIECE WHILE THEY HAVE FUN ON THE SLOPES."

PATTY BOLTON - MANAGER AND BUYER, HANSEN SURFBOARDS

FROM THE EVOLUTION OF SNOWBOARDING COMES A REVOLUTION IN RIDING APPAREL

CREATED FOR PARKRATS AND HUCKERS EVERYWHERE, AEGIX PERFORMANCE APPAREL IS A NEW ARMORED APPAREL BRAND. THE PATENT-PENDING LINE OF SNOWSPORTS JACKETS AND PANTS INCORPORATE STATE-OF-THE-INDUSTRY MATERIALS, BIOMEDICAL ENGINEERING, AND EXTENSIVE WEAR TESTING TO SHIELD SNOWBOARDERS AND SKIERS FROM THE ELEMENTS AND HELP PROTECT BODIES FROM THE IMPACT OF ROCKS, RAILS, AND THE OCCASIONAL BRUSH WITH GRAVITY.

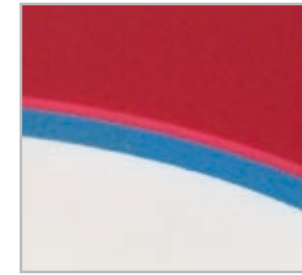

AEGIX' BIOMEDICALLY ENGINEERED PROTECTIVE SYSTEM INTEGRATES SEAMLESSLY INTO A STATE-OF-THE-ART, BREATHABLE, WATERPROOF OUTER SHELL. SNOWBOARDERS AND SKIERS STAY DRY AND COMFORTABLE IN ANY WEATHER CONDITION AS THEY STOMP OUT SOME BIG AIR.

AEGIX INTEGRATED PROTECTIVE SYSTEM*

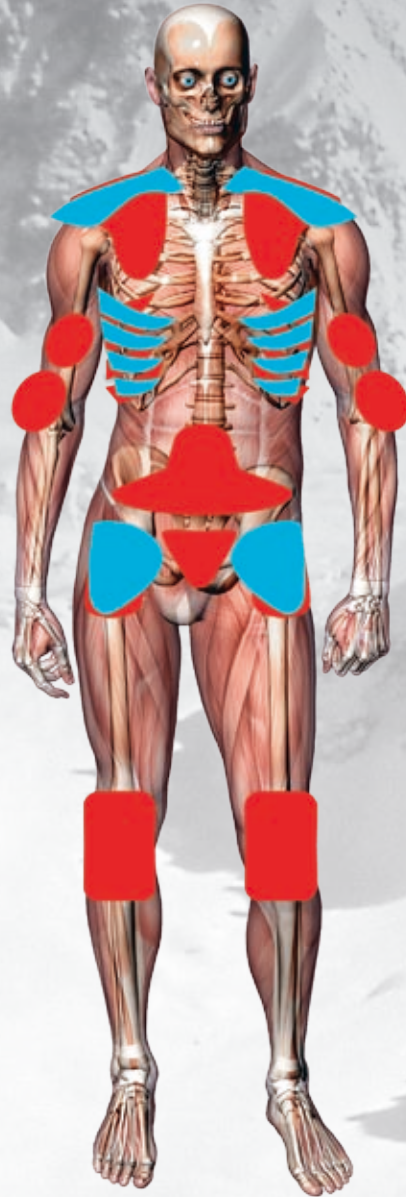

TECHNICAL OVERVIEW

AEGIX' INTEGRATED PROTECTIVE SYSTEM HELPS REDUCE THE INCIDENCE AND SEVERITY OF SNOWSPORTS INJURIES, WITHOUT COMPROMISING SNOWBOARDERS' AND SKIERS' FREEDOM OF MOVEMENT OR SENSE OF STYLE. SIMILAR TO HOW AN AIRBAG WORKS DURING A CAR ACCIDENT, AEGIX' FLOATING LAYER OF SHOCK-ABSORBENT PADDING INCREASES THE DECELERATION TIME AND DISTANCE DURING A FALL.

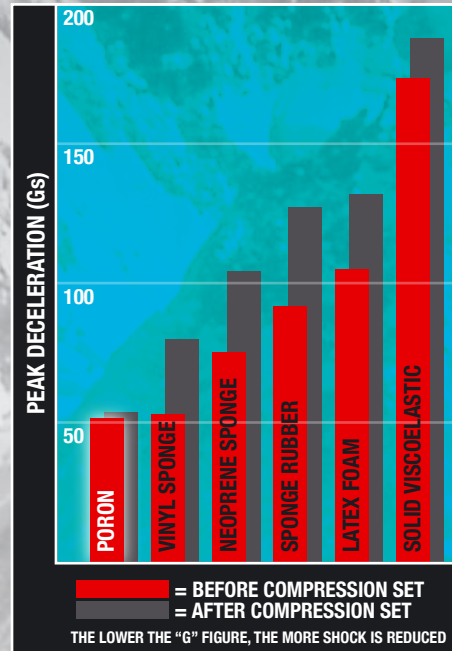

INTRODUCING PORON®

ALL AEGIX GEAR STYLES FOR MEN, WOMEN AND CHILDREN FEATURE THE **INTEGRATED PROTECTIVE SYSTEM**, A FLOATING LAYER OF LIGHT-WEIGHT PROTECTIVE PADDING MADE OF **PORON® URETHANES**. DEVELOPED BY ROGERS CORPORATION TO MEET AEGIX' BIOMEDICAL SPECIFICATIONS, THE FOAM PADDING IS ENGINEERED TO ABSORB NEARLY TWICE AS MUCH ENERGY AND MAINTAIN ITS SHOCK ABSORPTION PROPERTIES LONGER THAN OTHER VISCOELASTIC CUSHIONING MATERIALS ON THE MARKET. THE RED LAYER FORM-FITS TO YOUR BODY WHILE THE BLUE LAYER ABSORBS AND DEFLECTS THE BULK OF THE DAMAGING ENERGY, HELPING PREVENT A WHOLE WORLD OF PAIN.

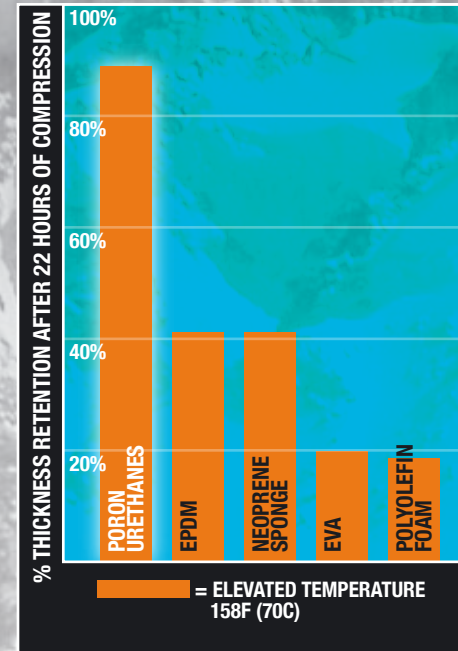

The **Aegix Integrated Protective System** can be tailored to meet your personal riding style. The system zips into the jacket, and each individual pad can be removed. Both the forearm/elbow and knee pads adjust to your height. We recommend that skiers remove the knee pads altogether and wear the **Aegix Wing**, instead.

FRONT PADS BACK PADS

SHOCK ABSORPTION

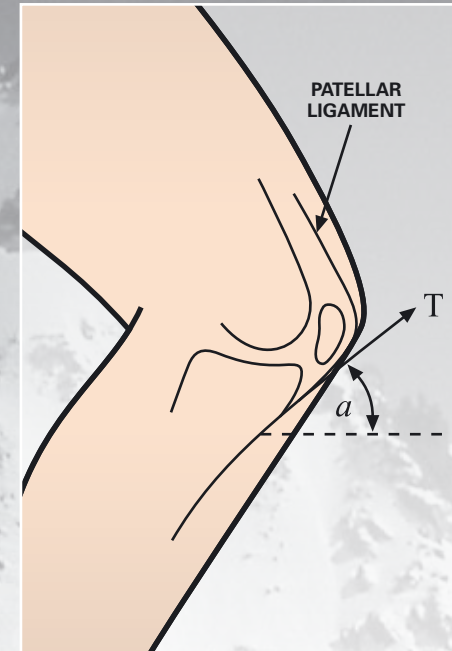

Laboratory tests show that the specially formulated **PORON® Urethane padding** in Aegix Gear absorbs nearly twice as much more force than the typical any competitive foam padding sold on the market. Other pads out there return up to 40% energy from an impact back onto the body after a fall, **PORON® Urethanes** absorb most of the damaging impact, with a rating of <2% energy return.

THICKNESS RETENTION

Further testing shows that the **PORON® Urethane padding** used in Aegix Gear maintains 90% of its thickness and shock absorption properties after continued use. This compares to popular cushioning materials such as Neoprene Sponge, Polyolefin Foam and Ethylene Vinyl Acetate (EVA), which lose 60 to 85% of thickness and shock absorption qualities after similar use.

*Warning: Snowboarding, skiing, and other snow related activities contain inherent risks, including risk of personal injury, death or property damage. This product is designed to help reduce the severity of injuries, but does not prevent them. For the use of Aegix Apparel, our user assumes all risks of injury and releases the company from all liability therefore.

PATELLAR LIGAMENT FORCE

The diagram above shows the tensile force on the patellar ligament during squatting. The tension (T) is very large when a person is in a low squat.

Injuries to the anterior cruciate ligament (better known as the ACL) are the most common skier injuries. This is not surprising, considering the forces generated in the knee while skiing can be over one hundred times a person's body weight.

Prophylactic knee braces currently on the market are designed to prevent further injuries after an initial injury has occurred, and they limit the knee's range of motion. They generally cost \$1,000 each.

AEGIX WING

The **Aegix Wing Preventative Injury Knee Brace** is an optional layer of protection for skiers. The patent pending Aegix Wing accommodates a full range of motion. Biomedically engineered, it provides increased support as the knee approaches full flexion or extension, which is when knee injuries typically occur.

SIZE	CIRCUMFERENCE
Small	Below 14"
Medium	14 1/2" - 15"
Large	15 1/2" - 16"
X-Large	16 1/2" - 17"

ARTICULATED SPINE PROTECTOR

The **Aegix Articulated Spine Protector** is designed for big huckers and provides both impact and tumbling protection. The high-density polyethylene armor plates are designed to protect the spine from heavy impact, and they interlock to prevent the spine from hyper-extending.

The Aegix Articulated Spine Protector is sold exclusively as part of the **Hux** and **Tigress** jackets.

WEARING THE JACKET/ARMOR MAKES ME FEEL MORE CONFIDENT IN QUESTIONABLE TERRAIN. MUCH THE SAME WAY MY HELMET DID WHEN I FIRST STARTED WEARING IT. I JUST FEEL THAT MUCH MORE PROTECTED. ★ JARED ALLEN

MEN

AEGIX

The A1

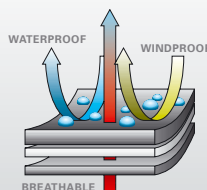

20,000MM / 20,000GSM
SIZES: XS - XXL

★ NOW AVAILABLE IN LIMITED SUPPLY ★

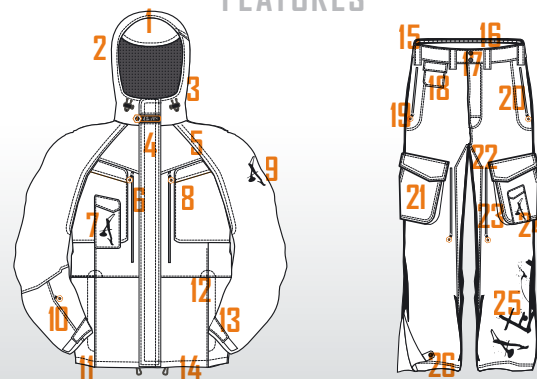

The A1 is an all-mountain, light-weight, hooded jacket and pant designed for skiing and snowboarding in all weather conditions.

The jacket and pant have a three layer 20,000 gm/cm³ breathability and 20,000 mm waterproof fabric, fully taped seams and welded waterproof zippers, Engineered Stretch for added mobility and a brushed lining on the fabric's backside for added warmth, without the bulky extra layers.

The Integrated Protective System helps protect and support the key areas of the upper body that are most prone to all-mountain injuries: **shoulder, clavicle, upper arm, forearm, ribs, lumbar, hips, knees, shins** and **tailbone**. The pant incorporates protective armor for the **hips, knees, tail bone** and **shins**.

FEATURES

JACKETS:

- 01 SEMI-RIGID HOOD VISOR
- 02 TONAL AEGIX PRINT
- 03 ARTICULATED HOOD
- 04 DOUBLE STORM PLACKET WITH RAIN GUTTER
- 05 CONTRAST STITCHING
- 06 WATERPROOF ZIPPERED CHEST VENTS
- 07 STASH POCKET
- 08 INTERNAL TETHERED ELECTRONICS POCKET
- 09 AEGIX EMBROIDERED LOGO IN CONTRAST THREAD
- 10 RIGHT SLEEVE STASH POCKET
- 11 INTERNAL DRAWCORD WITH INTERNAL POCKET ADJUSTMENTS
- 12 ZIPPER GARAGE FOR HAND POCKETS
- 13 INTERNAL LYCRA SNOW CUFFS WITH THUMB LOOP
- 14 INTERNAL DETACHABLE SNOW SKIRT

PANTS:

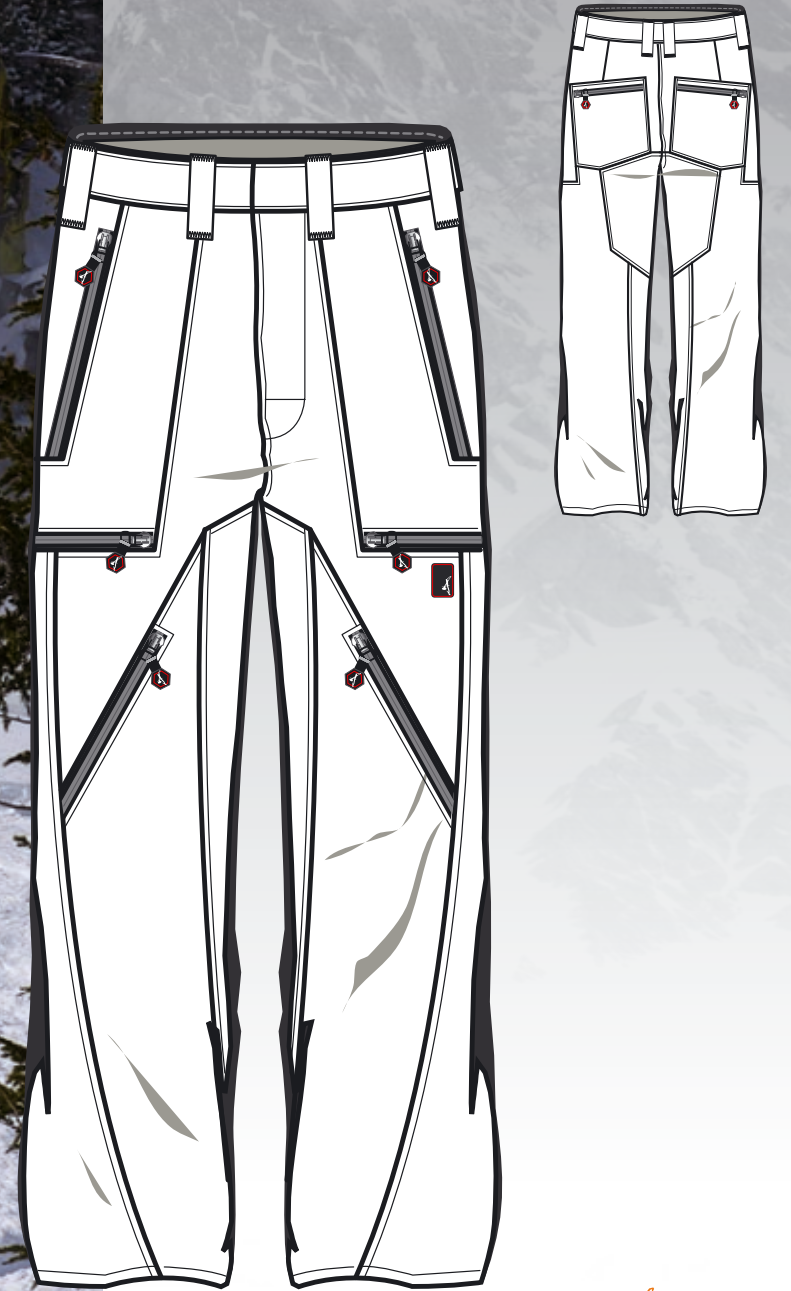

- 15 3/4" X 2 1/2" BELT LOOPS
- 16 INTERIOR BRUSHED TRICOT ON SEAT
- 17 SINGLE SNAP WAISTBAND
- 18 STASH POCKET
- 19 WATERPROOF ZIPPERED POCKETS
- 20 CONTRAST STITCHING
- 21 CARGO POCKETS
- 22 INNER LEG GUSSET PANEL
- 23 WATERPROOF ZIPPERED LEG VENTS
- 24 AEGIX EMBROIDERED LOGO IN CONTRAST THREAD
- 25 TONAL AEGIX PRINT
- 26 INTERNAL SNOW GAITER

COLORS

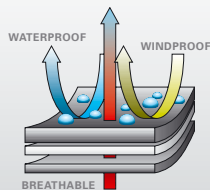

INCLUDES REMOVABLE ARTICULATED SPINE PROTECTOR

AEGIX

The HUX

20,000MM / 20,000GSM
SIZES: XS - XXL

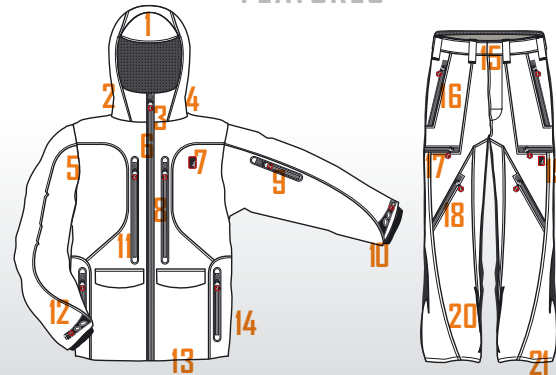

Designed with the big mountain and backcountry hucker in mind, the Hux style combines an all-weather jacket and pant with superior core armor.

The Hux provides exceptional protection from the elements, with a premium, three-layer 20,000 mm/20,000 gsm fabric, fully taped seams and welded waterproof zippers, Engineered Stretch for added mobility and a brushed lining on the fabric's backside for added warmth without the bulky extra layers.

The Hux incorporates a **removable, articulated spine protector** into the Integrated Protective System. The style also includes **double hinged, articulated knee pads** for added comfort and protection.

FEATURES

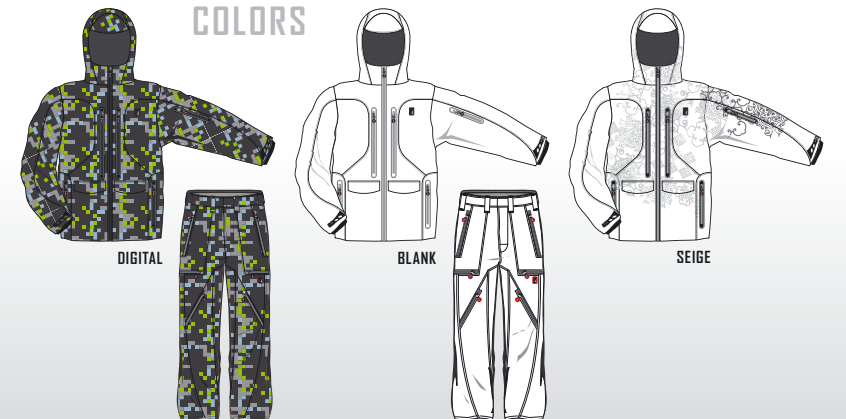

JACKETS

- 01 SEMI-RIGID HOOD VISOR
- 02 ARTICULATED HOOD
- 03 CENTER-FRONT PLACKET WITH RAIN GUTTER
- 04 HIDDEN HOOD DRAW CORDS
- 05 TAPED SEAMS
- 06 WATERPROOF ZIPPERS
- 07 SILICON AEGIX LOGO PATCH
- 08 INTERNAL TETHERED ELECTRONICS POCKET
- 09 STASH POCKET
- 10 INTERNAL LYCRA SNOW CUFFS WITH THUMB LOOPS
- 11 ZIPPERED CHEST VENTS
- 12 MOLDED CUFF TABS
- 13 INTERNAL DETACHABLE SNOW SKIRT
- 14 INTERNAL DRAWCORD WITH INTERNAL POCKET ADJUSTMENTS

PANTS

- 15 HIDDEN DUAL SNAP CLOSURE
- 16 WATERPROOF ZIPPERS
- 17 SHALLOW STASH POCKET
- 18 FRONT LEG ANGLED POCKET AND VENT
- 19 SILICON AEGIX LOGO PATCH
- 20 REINFORCED ANKLES
- 21 INTERNAL REMOVABLE SNOW GAITER

AEGIX

The PARK RAT

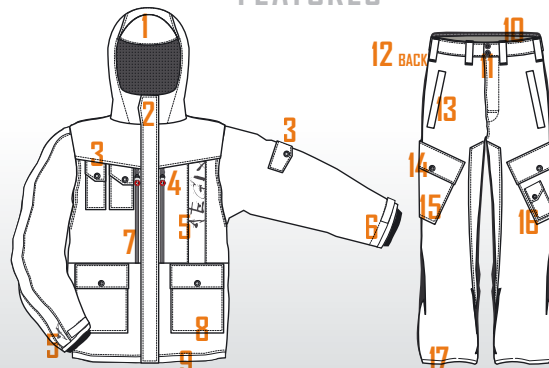

5,000MM / 5,000GSM
SIZES: XS - XXL

The Park Rat is a light-weight style designed for lower elevation and warmer weather terrain park riders.

The jacket and pant are made with a two layer 5,000 gm/cm³ breathability and 5,000 mm waterproof fabric, Engineered Stretch for added mobility, without the bulky extra layer, and a brushed lining on the fabric's backside for warmth.

FEATURES

FEATURES:

- 01 SEMI-RIGID HOOD VISOR
- 02 DOUBLE STORM PLACKET WITH RAIN GUTTER
- 03 EXTERIOR STASH POCKETS WITH CENTER HOLE SNAPS
- 04 INTERNAL ELECTRONICS POCKET
- 05 AEGIX PRINT
- 06 INTERNAL LYCRA SNOW CUFFS WITH THUMB LOOP
- 07 WATERPROOF CHEST VENTS
- 08 INTERNAL DRAWCORD WITH INNER POCKET ADJUSTMENTS
- 09 INTERNAL DETACHABLE SNOW SKIRT

PANTS

- 10 AEGIX INTERIOR WAIST SEAM
- 11 DUAL SNAP WAIST
- 12 AEGIX PRINT
- 13 SINGLE WELTED HAND POCKET
- 14 SHALLOW THIGH POCKETS
- 15 SILICON AEGIX PATCH
- 16 STASH POCKET
- 17 INTERNAL SNOW GAITER

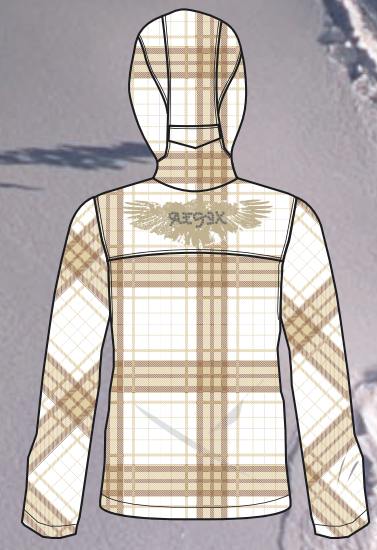

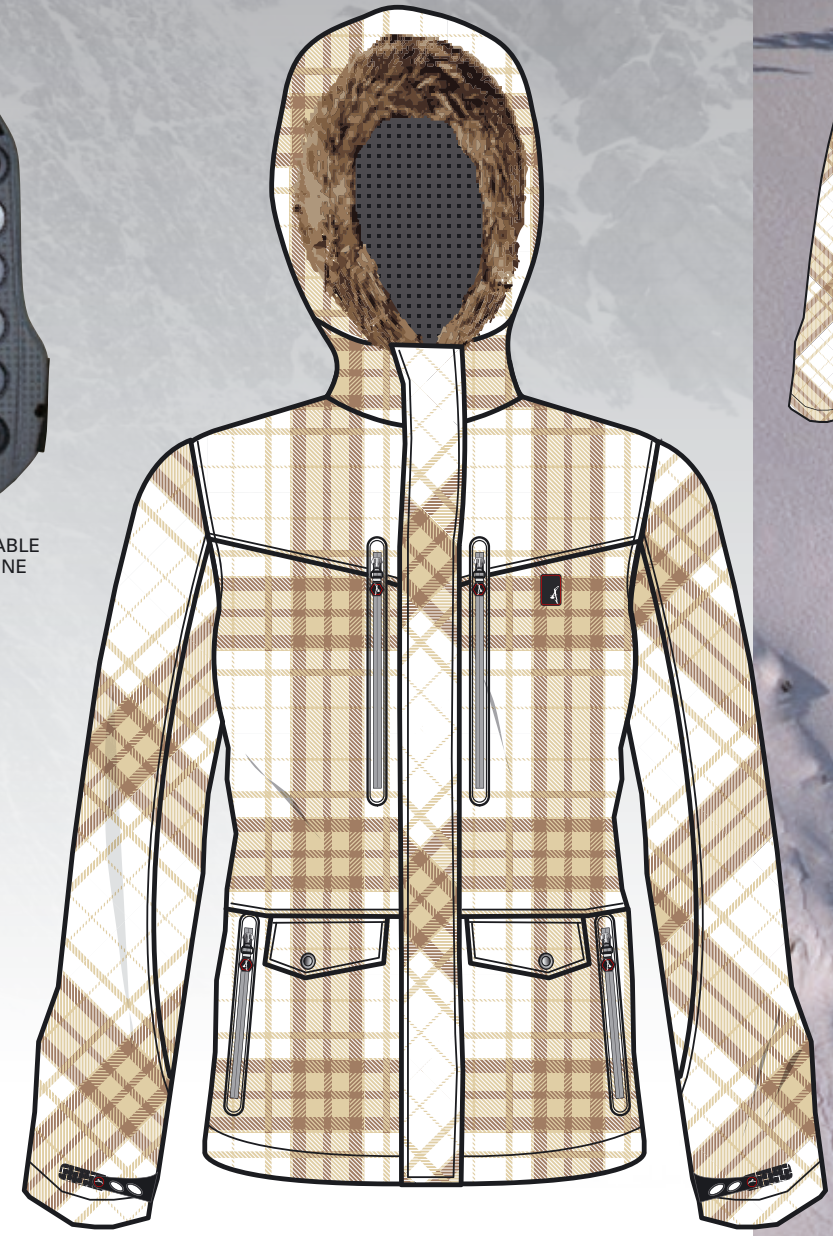

COLORS

WOMEN

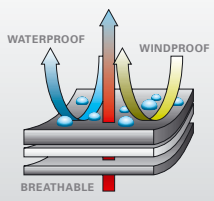

INCLUDES REMOVABLE ARTICULATED SPINE PROTECTOR

The TIGRESS

20,000MM / 20,000GSM
SIZES: XS - XXL

The Tigress is an all-weather jacket and pant designed to keep skiers and snowboarders comfortable in all mountain conditions.

It is made with a premium, three-layer 20,000 mm / 20,000 gsm fabric, fully taped seams and zippers, Engineered Stretch for added mobility and a brushed lining on the fabric's backside for added warmth. The Tigress provides exceptional protection from the elements and includes a faux-fur lined hood, and a rhinestone encrusted Aegix print.

The patent-pending Integrated Protective System is tailored for women and focuses on the key areas of the upper body that are most prone to big mountain injuries: **shoulder, clavicle, upper arm, forearm, ribs and spine.** The removable articulated spine protector provides added back protection. The pant incorporates protective armor for the **hips, knees, tail bone and shins.**

FEATURES

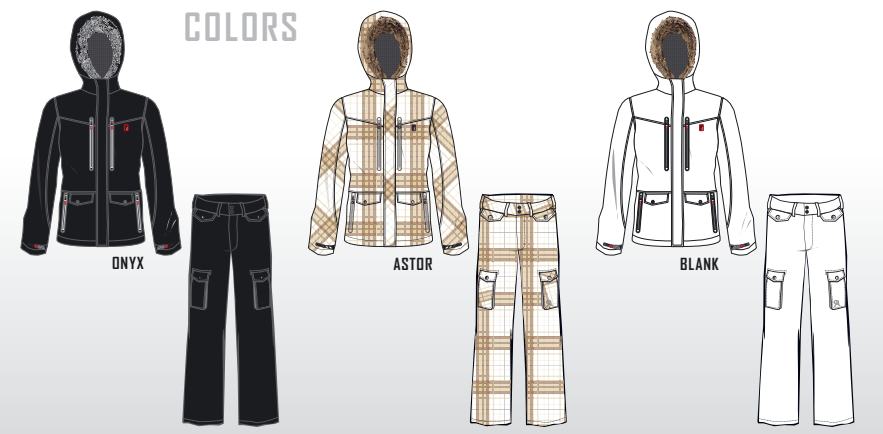

FEATURES:

- 01 FAUX-FUR HOOD LINING
- 02 ARTICULATED HOOD
- 03 HIDDEN DRAW CORDS FOR HOOD
- 04 RHINESTONE ENCRUSTED AEGIX PRINT
- 05 SILICON AEGIX LOGO PATCH
- 06 INTERNAL TETHERED ELECTRONICS POCKET
- 07 ZIPPERED CHEST VENTS
- 08 WATERPROOF ZIPPERS
- 09 INTERNAL DETACHABLE POWDER SKIRT
- 10 INTERNAL DRAWCORD WITH POCKET ADJUSTMENTS
- 11 INTERNAL LYCRA SNOW CUFFS

PANTS

- 12 DUAL SNAP CLOSURE
- 13 STASH POCKETS
- 14 RHINESTONE ENCRUSTED AEGIX LOGO

STOMP PAD

The Aegix stomp pad includes an integrated snow scraper and aluminum spikes, allowing for exceptional traction outside the bindings.

AT SOME POINT, YOU ARE GONNA FALL. WHY NOT BE PROTECTED FROM THE IMPACT WHEN YOU DO? YOU WOULD WEAR A SEATBELT WOULDN'T YOU? ★ PETE BENNETT

KINA PICKETT
Jackson Hole, WY
Skier
Age: 33

Kina is a professional big mountain skier who's appeared in twenty extreme sport movies, including Warren Miller's "Freeriders," "Ride," "Storm," "Journey" and others, as well as Teton Gravity Research films such as "Anomaly," "High Life," and "Soul Purpose." He began racing when he was eight years old, and today, Kina encourages inner city kids to try out skiing as part of the Foundation for Youth Outdoors United.

KOREY KACZMAREK
Moonlight Basin, MT
Snowboarder
Age: 31

Korey is a professional snowboarder whose love for adventure and high peaks has led him to ride some of the most remote mountains in the world. Korey's held the title North American Freerider (Extreme Champion) for two years, and his next goal is to become World Champion. Korey's favorite color is hot pink.

JAMISON BLAIR
Squaw Valley, CA
Skier
Age: 33

A competitive skier since he was eight years old, Jamie has been a top 15 competitor on the World Tour for several years running. Look for him in ski publications, including the 2006 Powder Magazine calendar. But, most important, Jamie is our cover king. He's been on the cover of everything from *Backcountry* to the '07 *Ski Utah* travel guide, and was in a published photo every month last season, in magazines from *Ski to Freeskier* to *Powder to Couloir*.

PETER BENNETT
Kirkwood, CA
Snowboarder
Age: 35

You might recognize Pete from his weekly appearances on Resort Sports Network's "Lake Tahoe Report." Or, you might recognize him as a top-notch competitor in the North American Freeriding Championships, where he made the finals 7 times. Pete loves heliskiing and walking his Chocolate Lab, Tai.

ATHAN MERRICK
Whistler, BC
Skier
Age: 21

Athan is a top competitor in free skiing competitions in B.C. - with the exception of his first competition at the Silver King Freeride IFSA event at Crystal Mountain, when he crashed over some rocks and tumbled down a cliff. Ouch! Aegix Gear could have saved him some serious pain! Currently attending the University of British Columbia, Athan continues to pursue new possibilities in the backcountry, exploring logging roads, huts and new zones beyond the resorts.

JAIME MORALES
Mountain High, CA
Snowboarder
Age: 27

Jaime's biggest influence in life is snowboarder Dave Downing, and we see him duplicating Dave's career in snowboarding. He spends all of his spare time jibbing with friends at the park at Mountain High. Jaime competes locally, and this year, his eye is on the major comps.

JARED ALLEN
Snowbasin, UT
Skier
Age: 28

Jared likes to go big. Early in 2006, he broke the 100 foot mark hucking a cliff in Utah. On a good day, he can clear 200 feet in three cliff drops and do a double front flip over a road gap. Whew! Look for Jared during several FISIS competitions this season. And, if you see someone hucking a cliff in Utah, it's probably him.

SEAN LAFFERTY
Kirkwood, CA
Snowboarder
Age: 17

The youngest Aegix team member, Sean is the proud winner of the Beautiful Baby Contest in Didez Diaper Magazine. He has only been riding for a couple of years, but he's already hucking off cliffs and getting noticed in the parks. His goals in life are to invent a cure for cancer and a teleporter machine.

RON SHEVOCK
Kirkwood, CA
Skier
Age: 31

Skiing since the age of 6, Ron grew up logging more than 100 days a season, thanks to his older sister who was a ski instructor. These days, you can find Ron in the backcountry in Tahoe. In early 2006, Ron bagged Hospital Air, a 135 foot cliff at Kirkwood, with Nate. This feat hadn't been accomplished in a decade.

BRYAN CALLAGHAN
Bear Mountain, CA
Snowboarder
Age: 21

Brian is our first champion this season, winning first place in the 9Star Rail Jam in Southern California. His winning move: a Frontside 180 Switch Nose Press to a Blunt Side 270 Out. If Bryan could ride everyday, he would. But living in LA as a graphic design student means his time on the mountain is limited. In LA, he rides the streets on his skateboard, and he's got a ton of skate sponsors. Look for Bryan this season at the So Cal comps.

NATE KUSHLAN
Jackson Hole, WY
Skier
Age: 23

The second person in history to hit Hospital Air, Nate is known the wear the same shirt every day of the season, for good luck. He started skiing at the age of 2, at a small resort outside of Harrisburg, Pennsylvania. In high school, Nate and his brother went stormchasing, sometimes traveling 8 hours each way to get the fresh powder. He now works for Wink, Inc., an action sports film company.

MIKE MOREALI
Sierra-at-Tahoe, CA
Snowboarder
Age: 21

Mike started snowboarding when he was in eighth grade as a way to keep skating in the winter. Mike rips up the parks jibbing off anything in sight. Always first in line at the all-you-can-eat buffets in Tahoe, Mike never passes up the green Jell-O™ with the whipped cream on top.

JASON BROWN
Aspen/Snowmass, CO
Skier
Age: 31

Jay started skiing at the age of 14 on snow-covered trash heaps in Detroit, Michigan. He's moved up since then. Today, he lives in Aspen, Colorado, and he's competed on the competition circuit for two years, ranking 17th in North American I.F.

BRIAN MURPHY
Alpine Meadows, CA
Telemarker
Age: 23

The only telemarker on the Aegix team, Brian is a freeheeler in a hucking world. He's into all aspects of riding in the park and the backcountry, competing in both big mountain and park/rail competitions. Look for him in the film "The Sublimation Project" by KGB Productions. He's the one getting the biggest air. Brian's biggest claim to fame is winning the Milli Vannili lip-syncing competition when he was in 6th grade.

AEGIX TEAM 08

I SWEAR AEGIX SAVED MY RIBS THIS WEEKEND. TOOK A SUPER HIGH SPEED DIGGER WITH MULTIPLE SOMERSAULTS WHEN I CLIPPED A ROCK WHILE MACHING. DOOF. GOT THE WIND KNOCKED OUT OF ME, BUT AS I WAS FLIPPING THE THOUGHT "WELL, AT LEAST I'M TESTING THE GEAR OUT" FLASHED THROUGH MY MIND. ★ RON SHEVOCK
